NEW CHOOKPEN

Work began this week on our new chookpen, which is being constructed using a variety of recycled materials.

We would like to acknowledge the help of Wilpinjong Mine and HOLCIM in making the project possible. We are all looking forward to it's completion so our hens can return to school.

Many thanks go to Mrs Lewis for taking such good care of our "babies" whilst the chookpen is finalised. We have 2 roosters free to good homes, so if you would like a rooster, please contact the school as soon as possible.

NAPLAN RESULTS

Students in Years 3 & 5 participated in NAPLAN assessments in May.

Results are attached.

Please contact the school if you would like to discuss your child's result.

SHARED TABLE PROJECT

Our students hosted this week's video conference and are to be congratulated on their efforts.

Mrs Rose is most impressed with the confidence and enthusiasm displayed by all students.

Students demonstrated how to make a mini worm farm for the other schools and talked about the other projects that are planned for the rest of the term. These include making a special herb garden using a pallet and preparing the garden beds for planting with seedlings.

Mrs Rose has very generously supplied a bale of mulch and a load of manure for use in the garden.
